About Us

wienwork

About wienwork

For over 40 years, we have been creating and facilitating employment and training opportunities for people who are disadvantaged in the labour market. With our services, projects and business areas, we are represented at numerous locations throughout Vienna.

We enable people with disabilities, chronic illnesses or long-term unemployment to participate in economic and social life and to secure their personal livelihoods.

We currently employ more than 820 people, including 180 apprentices. Around 70% of our employees have a disability or multiple disabilities, or were unemployed for an extended period before finding work at wienwork. All of our apprentices have learning difficulties. In many cases, they face additional challenges, such as hearing impairments, autism spectrum conditions or social difficulties.

Our employees are paid in accordance with applicable collective agreements.

In addition, we provide counselling, coaching, training, qualifications, and job placement services to more than 4,000 clients each year.

We live and breathe inclusion and, through our work, raise awareness in society for the concerns of fellow citizens with disabilities.

In close exchange with organisations from Austria and abroad, we embrace the principle of “learning from one another”.

We place great importance on sustainability and environmental protection: for many years, we have held the quality seal for Social Enterprises. We are a certified OekoBusiness company and several of our departments have been awarded with the Austrian Ecolabel.

Family-friendly HR policies and workplace health promotion (WHP) are key priorities for us: through the WHP seal of quality, we implement measures that support a healthy working environment at wienwork.

wienwork offers people who are unable to find employment in private sector companies due to their disability a (re)entry into working life. This gives them the opportunity to achieve something every person wishes for: a self-determined life.

Our Services – Awarded with Seal of Quality

Digital Media

Looking for high-quality print products tailored to your needs? At Digital Media, we produce everything in-house – from eye-catching flyers and elegant brochures to professional business cards, folders, posters, catalogues and even secure plastic ID cards. All printed on cutting-edge machines, with brilliant quality you can count on. Personalised expert advice and fair prices? Absolutely included.

Gastronomy

Every day, we cook for and delight well over 1,000 guests at our restaurants, canteens and cafés across several locations in Vienna. We also offer our customers a professional catering service, as well as freshly prepared sandwiches and exquisite cakes – all delivered straight to your door. We hold ourselves to the highest standards when it comes to product quality and freshness, because only the finest ingredients can create food that is truly delicious and nourishing.

Landscape Gardening

Whether it's a quiet courtyard, a company's outdoor area or a private garden oasis, we combine horticultural expertise with a genuine passion for nature. Our skilled team listens carefully, works precisely, and always finds the right solution to turn your outdoor space into something truly worth seeing.

Renovation & Maintenance

Bathroom renovations, fresh paint for your office space, laying or sanding floors, replacing light fixtures and much more – we take care of it all.

Reliable, on schedule and at a fair price.

With our 'Mobile Metal Workshop', we even carry out repairs and various welding tasks directly on site at your premises.

Cleaning Facilities & Carwash

We provide regular cleaning services for offices, buildings and building sections such as stairwells, as well as deep cleaning and professional window cleaning.

As a special service, we also offer the cleaning of photovoltaic systems – helping you maintain both cleanliness and efficiency.

Textile Cleaning, Ironing Service & Tailor's Workshop

In our laundry facility, we hygienically clean and carefully care for around 1,500 kg of laundry every day – environmentally friendly, RAL-certified, and with optional disinfecting wash processes. Pick-up and delivery service included.

Our sewing department and 'Creative Workshop' specialise in small production runs and collaborate closely with a variety of designers. We also offer custom-made textile promotional items – tailored precisely to our customers' needs and ideas.

Woodworking, Upholstery & Furniture Weaving

Our carpentry workshop produces made-to-measure built-in furniture for both commercial and private clients, as well as furnishings and small series for residential homes, offices and hotels. Each year, we craft around 300 bespoke kitchens.

We also offer upholstery services – whether for unique one-off pieces or small-scale production runs. No challenge is too big or too creative.

Our traditional furniture weaving contributes to a more sustainable approach: repairing rather than replacing. We lovingly restore your favourite pieces – all from a single source, and with a renewed shine.

Inclusive Workplaces. Meaningful Services.
We are part of Austria's Inclusive Enterprises.

Empowering People with Fewer Opportunities

Our goal: To sustainably strengthen the professional, personal and social skills of all employees and apprentices.

Stability and support: Our company social work team offers ongoing guidance and counselling to both employees and apprentices.

For barrier-free communication: Our deaf employees and apprentices are supported by communication assistants using Austrian Sign Language.

Educational support for apprentices: Specialised educational staff help consolidate and reinforce vocational school content – also available in Austrian Sign Language.

Inclusive employment: We offer fully-fledged jobs across our various business areas within our Inclusive Enterprise.

Transitional employment: Through our Social Economic Enterprise MICHLS, we provide time-limited jobs as a stepping stone back into the labour market.

Professional qualification: Through our projects QualiTRAIN (for adults) and On the Job (for young people), we help participants build practical skills and gain workplace experience.

Inclusive apprenticeships: We offer apprenticeships as part of Austria's supra-company inclusive vocational training schemes – including extended apprenticeships and partial qualifications.

We are proud of our dedicated employees and apprentices, whose achievements, ideas and remarkable commitment have contributed – and continue to contribute – to many of wienwork's successes and awards.

● Jobmanagement – Your Path to Employment

With over 100 team members, our Job Management department supports more than 4,000 people each year – with and without disadvantages – on their path into employment or back into the world of work.

Our Focus

We support young people and adults with disabilities and other disadvantages through personalised guidance, skills development and job placement – helping them take confident steps into working life.

Our Offer

We provide support at crucial transition points – each as unique as the individual. Whether it's moving from school into vocational training, from a qualification programme, training placement or apprenticeship at wienwork into a job, or taking the step from unemployment into work – even into starting your own business – we're here to guide the way.

We are also committed to safeguarding jobs at risk and offer guidance to companies in finding constructive solutions to workplace conflicts – with a clear focus on social responsibility and sustainable employment.

We Find a Way

Together with our clients, we explore the path that fits best – even if it means taking a step sideways before moving forward. Sometimes the right way begins with a detour, but we walk it together, one step at a time.

Strong Networks. Trusted Partnerships.

Cooperation with other specialized integration services, as well as strong partnerships with businesses, is essential to the success of our work.

Experts in Inclusion and Integration

Our team brings together over 100 experienced professionals with specialised training and a strong commitment to inclusion. We work in partnership with our clients – on equal footing – to create sustainable win-win outcomes for both: individuals and employers.
